

Product Data Sheet

TPE CORNER Accessories

Axter TPE external and internal corners are designed to make the installation of bitumen waterproofing membranes at corners and edges of roofs easier and quicker. They also provide excellent, robust waterproofing and an aesthetically pleasing result.

Key benefits

- Fully compatible with SBS and APP bituminous membranes.
- Simplifies installation of waterproofing at corners and edges.
- Provides robust waterproofing and excellent resilience to the elements.

The elasticity of the material TPE corners are made from ensures long-term watertightness. The TPE corners are resilient to deterioration caused by the sun, other elements and chemicals normally found in the atmosphere.

The material also allows for excellent flexibility, even at low temperatures, which ensures mechanical and physical properties are maintained over time.

Packaging	Box of 50
Colour	Black

TPE External Corner L95
