

Technical Data Sheet

Starcoat PMMA Decorative Chips

Starcoat PMMA Decorative Chips are especially designed to be used as a topping with Starcoat PMMA liquid waterproofing products. In addition to providing design options for the finished surface, they also enhance the non-slip properties of the waterproofing.

Material

Acrylate-based topping.

Properties and advantages

Can be used as a single colour or multiple colours for a compatible resin product.

Use

Starcoat PMMA Decorative Chips are applied to the Starcoat PMMA sealing layer to enhance the appearance of the finish as well as to optimize the non-slip properties of the surface.

A non-slip level of up to R10 can be achieved.
