STARCOAT QC®

Liquid waterproofing for ponds

S.qc

Starcoat QC

We innovate beyond the norm, reimagine what's possible and endeavour to inspire change in the way roofs are used. We waterproof differently.

Yes, we provide the obvious; high quality, bespoke design, great service and long term insurance backed guarantees. These are the founding principles of our business and we wouldn't exist as a respected waterproofing system designer and manufacturer without them.

What makes us different is our approach.

For us, waterproofing and roofs should never be boring; they must be beautiful. Beautiful in their simplicity, versatility, longevity and practicality.

Of course, we enjoy complexity and are inspired by ambitious and exciting designs, yet we thrive on the every-day and the ordinary. Axter believe that whatever you can build on the ground, we can design and build for you on the roof.

Partner with us and realise your roof's potential.

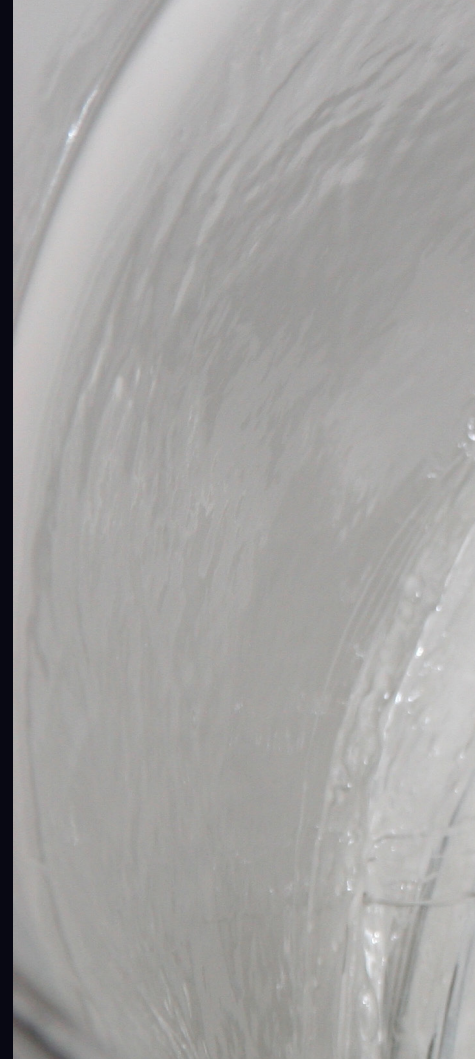

STARCOAT® QC

Pond Liner is a quick curing single component synthetic cold applied liquid waterproofing system that's twice the thickness of all other standard linings.

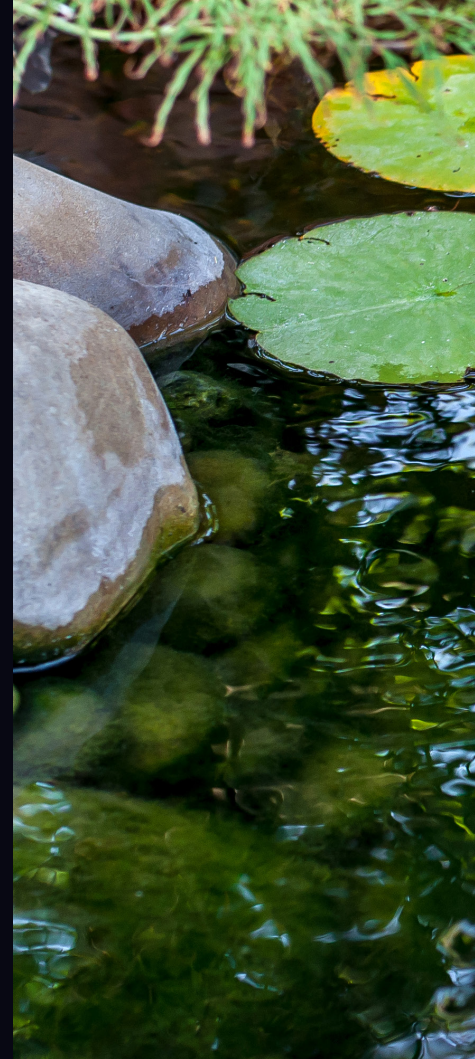

The seamless liquid applied system has a BBA Certification which independently gives a life expectancy of 25 years. In addition, STARCOAT® QC is CE Marked and is Drinking Water Approved according to EEC (European) Directive 98/83/CE. The results of these European drinking water tests demonstrate that STARCOAT® QC Pond Liner is suitable for Koi Fish and European Aquatic Suppliers.

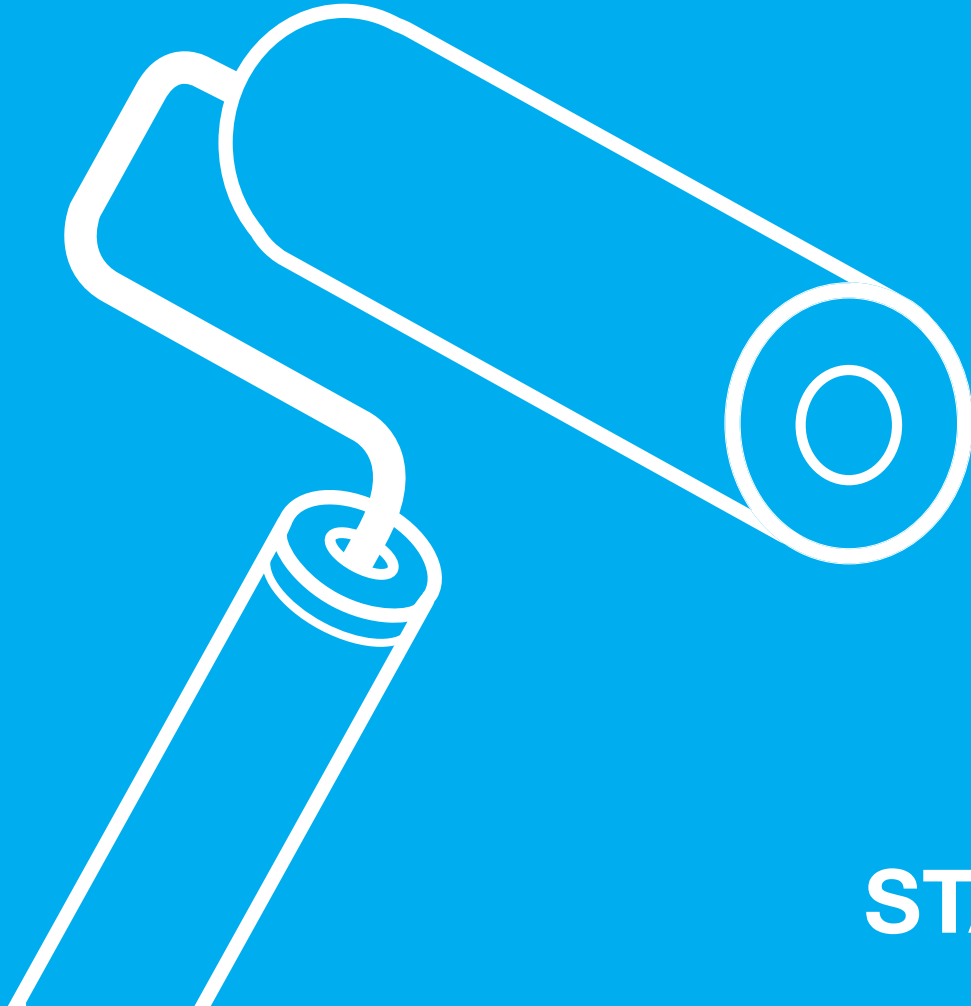

BENEFITS

- Single component system
- 100% cold applied with quick curing time of 4-8 hours
- Seamless waterproofing membrane
- Drinking water approved according to EEC (European) Directive 98/83/CE
- Fully reinforced system bridging cracks and complex details
- Tough, elastomeric membrane capable of withstanding structural and thermal movement
- Self terminating system
- Range of colours and wearing courses available
- BBA approved, Certificate No. 13/5031
- 25 year manufacturer service life
- 20 year insured guarantee (materials, workmanship, design and insolvency)
