WILOTEKT REINFORCEMENT MESH

Wilotekt®-Plus Structural Waterproofing System

Introduction	WILOTEKT reinforcement mesh is the reinforcement element and forms an integral part of the WILOTEKT®-PLUS structural waterproofing system.
Usage	WILOTEKT reinforcement mesh is used as the first layer to form the reinforcement of the system and to control the flow of the hot-applied WILOTEKT compound.
Presentation	WILOTEKT reinforcement mesh is packaged in 100m x 1m rolls. Colour: purple. Roll weight: 15 kg
Storage	WILOTEKT reinforcement mesh is supplied in shrink wrapped rolls. The rolls must be kept dry. Do not expose to naked flame. Shelf life (unsealed packaging): 1 year.
Comments	Dispose of all surplus materials in appropriate designated containers. Non-hazardous waste.

Wilotekt®-Plus Accreditation: European Technical Assessment ETA 03/0049.

The manufacturer reserves the right to modify, at any time, the characteristics of this product.
